SUMMARY

Web Developer skilled in HTML, CSS, JavaScript, and Python, with a passion for solving complex problems and building scalable, efficient solutions. Dedicated to staying ahead of industry trends and leveraging new technologies to drive meaningful results.

SKILLS

Languages: Python, Java, C, C++, HTML, CSS, Javascript, Typescript

Frameworks and Libraries: React, Express.js, Node.js, Next.js, Django, Flask

Database: MongoDB, SQL, Firebase

Tools: Postman, Git, Linux

Other Skills: Problem Solving, Data Structures and Algorithms, Debugging

EDUCATION

Bachelor of Technology   Oct 2021 - June 2025
KCC Institute of Technology and Management, Greater Noida

EXPERIENCE

Frontend Web Developer   Feb 2021 - Oct 2021
Zenex Solutions - Remote

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Used tools like Figma and Adobe XD to convert designs into fully functional, pixel-perfect webpages.

Full Stack Web Developer   Feb 2023 - Aug 2023
Flipsoft Technologies - Remote

- Designed and developed both client-side and server-side components for a variety of web applications, using modern technologies such as React, Node.js, and Express, ensuring smooth and responsive user experiences.
- Led end-to-end deployment processes, utilizing version control (Git) and cloud platforms to streamline continuous integration and delivery pipelines.

PROJECTS

Textly - Realtime Chat App
View

- Developed a real-time chat application using MERN Stack and Socket.io, enabling seamless communication with instant message delivery and low latency.
- Created a sleek, responsive UI with Tailwind CSS, incorporating 20+ customizable themes to enhance user experience and visual appeal.

E-Commerce Store
View

- Developed a fully functional e-commerce application using MERN Stack, enabling users to browse products, add to cart, and complete purchases using PayPal.
- Integrated secure payment gateways and implemented user authentication with JWT, ensuring a safe and personalized shopping experience for every customer.

ECHO - Your Online Timecapsule
View

- Built a web application using React and Appwrite to securely store user's thoughts and memories. Integrated RESTful API endpoints and managed state using Redux for seamless user experience and data consistency.
